*For most people breakfast represents the start to a new day. An opportunity to leave the past behind & commence a new journey into a fresh & positive future which hasn't been tainted or affected by the throes of a "yesterday" or a "day before yesterday". It offers us all a fresh opportunity to hang on to our dreams and aspirations and move closer to them. It may even represent a progressive move towards that all important & sometimes ever elusive path to eternal happiness. Then there are those others however, who can't help but seemingly effortlessly, continually fall out of the wrong side of bed (like some dodgy rerun of titanic) & believe that its everyone else's fault that they are still tired & cranky. Or, that somehow we are all to blame for their incredible unhappiness. Or, that it is our fault that they are running late for their tour or work appointment because they came to us (BMG) for a fully cooked breakfast with a time allocation of only 8 minutes because they kept pressing the snooze button. People it takes a normal chicken eight minutes to lay the egg!!!! GRUMPY BREAKFAST PEOPLE PLEASE NOTE WE - WILL ARE NOT A GRUMPY BREAKFAST PEOPLE FRIENDLY OUTLET WE WILL NOT HESITATE TO YELL AT YOU LOUDER IF YOU ARE NOT HAVING A GOOD DAY. All of us here at Blue Moon Grill wish you all a very good morning & welcome you all to your own personal opportunity to allow us "by a completely unfounded, based entirely on something totally unscientific with categorically no proof & absolutely no guarantee that it has anything to do with us"..... to somehow make your day a happy one today by enjoying breakfast with us lakeside in Trinity Beach.

“There’s Nothing Trifle about the Blue Moon Grills Breakfast Trifle”

Quiet possibly the second greatest breakfast dish ever invented - We have taken the humble traditionally served at 1980’s dinner parties, after far too many glasses of Cointreau & apple juice or far too many chocolate oranges have been consumed” trifle & given it a little Blue Moon Grill breakfast twist. But, we have endeavoured to keep true, as much as possible, to the trifle or not so trifle concept. Visualise our taste sensation when we take layers of apple infused oats, tableland sugarcane sweetened rhubarb, roasted tropical ivory coconut, mixed berries & lashings of honeyed natural yoghurt. Mmmmmmmmm, Yep that’s right - No Viagra required for this little puppy.. 16
